All Easy Ag[®]/Silverlon[®] Wound Care Products provide the safest and strongest multi-day antibacterial, antifungal, and antimicrobial protection available today. *Easy Ag[®] can be used safely on **anyone** with burns, cuts, abrasions, blisters, skin rashes, animal bites, and insect bites for primary First Aid.* It has often been reported that when used quickly after injury, Easy Ag[®] Adhesive Strips and Bandages help reduce swelling, inflammation and pain.

Easy Ag[®] Adhesive Strips and Bandages provide the safest, most effective, and longest lasting treatment for wounds contaminated with MRSA Infections which are quickly infiltrating sports teams and gym facilities with a vengeance. Easy Ag[®] Strips and Adhesive Bandages should be considered a necessary part of any Sports Medicine Treatment Regime especially if the treatment is related to MSRA (Methicillin-Resistant Staphylococcus Aureus) Infections due to Sports Injuries that occur in Athletes.

Easy Ag[®] Adhesive Strips and Bandages are a perfect addition to any First Aid Kit, and come in a compact resealable water resistant foil pouch.

Easy Ag[®] Adhesive Bandages and Strips can be used in conjunction with any outdoor activity including hiking, biking, camping, and fishing.

Easy Ag[®]/Silverlon[®] Bandages are currently in use by hospitals such as Johns Hopkins, the Mayo Clinic, Northwestern University, the [University of Michigan](#), and Baylor University as well as several active [Military Units](#) in Afghanistan, Iraq and Germany.

Easy Ag[®]/Silverlon[®] Bandages and Strips are simply the most effective, durable and easy to use antibacterial / antimicrobial product on market. Now, select Advanced Silver Burn Care and Wound Care Products are available for you. All Easy Ag[®] and Silverlon[®] Burn Care and Wound Care Products listed above have **FDA Clearance**. Argentum Medical, LLC is a member of the [Wound Care Education Institute](#), and a member of the [National Alliance of Wound Care](#).

Easy Ag[®]/Silverlon[®] Adhesive Strip Testimonials:

I have to tell you, I burned my finger badly today on a boiling cup of tea, got a huge blister almost immediately...I put ice on it, then dried it and put on a EASY AG/SILVERLON bandaid; within a few minutes it didn't hurt at all! Several hours later, I still don't have any pain. I've had bad burns like this before, and usually they throb and hurt so badly you can hardly sleep. I'm thrilled!

Susanna D.

I have been an athlete all my life. Hard core athlete - that is: Participated in Winter Olympics in 1976 (skiing) and have always considered my body to be the most important "tool" of my life even at 63 (I live in such an active mountain community, that 70' and 80' are still active years).

After running a recent (August 2004) race Pike's Peak Assent (from 5 000 ft. plus starting to 14 000 ft plus ending) and developing a big, nasty and painful blister on my heel, I was concerned that it will unable me to hike and bike for the beautiful fall days to come. Gene (my at home 24/7 "healer") persuaded me to put the silver band-aid (Easy Ag/Silverlon) on – hours later I was pain free and 48 hours later the huge blister was history and I now can continue to abuse my 63-year-old body! Athletes are horrible patients – they depend on and are tuned with 100% functioning body and non-working parts are a cause of misery for them. Hurrah! To Easy Ag/Silverlon band-aids!

J. Hlavaty
