Product Description for Consumer Care

Easy Ag® Silver Adhesive Strips

Product Description:

Easy Ag® Adhesive Strips are similar to the Johnson and Johnson Band-Aid® adhesive strip with the addition of a Silverlon® wound contact layer. Easy Ag®/Silverlon® Silver Adhesive Strips are currently manufactured for medical professionals and consumers in the following size: 1" x 3".

Easy Ag® Antimicrobial Silver Adhesive Strips and Bandages can be used for virtually any outdoor activity including hiking, biking, camping, and fishing. The silver coated nylon fabric provides the safest and most effective protection for burns, cuts, abrasions, blisters, skin rashes, animal bites, and insect bites. Because of the powerful *Antibacterial / Antimicrobial Protection* that Easy Ag® Adhesive Strips and Bandages provide, anyone who is active outdoors should certainly carry this product for primary First Aid.

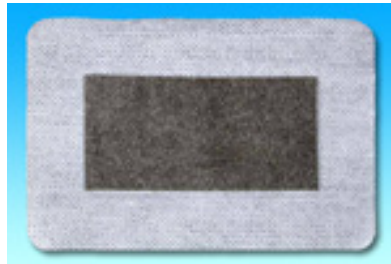

Easy Ag® Adhesive Strips should be considered as a perfect addition to any outdoor First Aid Kit. Easy Ag® Adhesive Strips can be used on anyone and any wound, and come in a compact resealable water resistant Aluminum Foil pouch.

Approved FDA & Canadian Ministry of Health Indications:

Easy Ag®/Silverlon® Adhesive Strips are indicated: (1) Professional Level: for wounds such as vascular access or peripheral IV sites, orthopedic external pin sites, wound drain sites, and surgical incisions; (2) Consumer Level: treatment of minor wounds and burns.

The Easy Ag[®] Silver Adhesive Bandage

Product Description:

Easy Ag[®] Adhesive Bandages are designed to be used with larger burns, lacerations, abrasions, and Dermal Ulcers (vascular, venous, pressure and diabetic). The Adhesive Bandage may be used anywhere on the body where a surface area larger than the Easy Ag[®] Adhesive Strip is required. Easy Ag[®] Antimicrobial Adhesive Bandages are currently available to Consumers in three sizes: 2" x 3" (1" x 2" Pad), 3" x 4" and 4" x 6".

Cleared FDA & Canadian Ministry of Health Indications:

Easy Ag[®]/Silverlon[®] Adhesive Bandages are indicated: (1) Professional Level: for wounds such as vascular access or peripheral IV sites, orthopedic external pin sites, wound drain sites, and surgical incisions; (2) Consumer Level: treatment of more sizable superficial wounds and burns with a surface area larger than the Easy Ag[®] Adhesive Strip provides.
